

Specialty Chemicals

Who We Are

Inhance Technologies is a leading manufacturer of specialty chemicals, gases, and material technologies, across four continents. We develop innovative technologies and solutions that transform specialty chemicals and plastics on a global scale, in a wide range of industries.

For more than 40 years, Inhance Technologies' world-class experts have been collaborating with customers to create customized solutions and offer exclusive technologies. Our dedication to safety, quality, and the environment results in specialty products that are manufactured to the highest standards.

Offerings

We proudly offer a wide range of specialty and fine chemicals, with manufacturing capabilities ranging from small scale to multi-ton quantities. Our products are manufactured to meet very specific requirements, safely and with care.

Our industry leading knowledge in fluorine chemistries has enabled us to develop a unique portfolio of fluorides, acids, specialty salts, and cationic photoinitiators. With our world-class experts and a U.S. manufacturing footprint that can meet and exceed the highest global standards, our offerings provide our customers with a competitive edge.

We are one of the world's leading manufacturers of fluorine-based chemistries. Our portfolio also includes specialty acids, specialty salts, and much more.

Fluorine-based Chemistries

- Carbon Monofluoride (CF_x)
- Silver (I) Fluoride (AgF)
- Iodine Pentafluoride (IF₅)
- Niobium Pentafluoride (NbF₅)

Specialty Salts

- Sodium Hexafluoroantimonate (NaSbF₆)
- Lithium Hexafluoroarsenate (LiAsF₆)
- Cesium Hexafluorosilicate (CeSiF₆)

Specialty Acids

- Hydrofluoric Acid (HF, anhydrous and aqueous)
- Hexafluorozirconic Acid (ZrH₂F₆)
- Hexafluorotitanic Acid (TiH₂F₆)

Other Chemistries

- Hydrogen Fluoride (HF)
- Lithium (I) Fluoride (LiF)
- Silver (I) Triflate (AgCF₃O₃S)
- Triethylamine Trihydrofluoride (TEA:3HF)

Furthermore, we offer an array of high quality, specialized, research chemicals. For our entire catalog, please reach out to your account representative.
